

Inox Glazing

BY REGALEAD

EUROPEAN STYLE

Our range of stunning Inox Glazed doors combine the high-performance of GRP composite materials with beautiful aesthetics to give a truly contemporary look to any entranceway.

PERFORMANCE

Manufactured using a 44mm Composite door slab combining 2mm GRP outerface, LVL and timber sub-frame and CFC Polyurethane core, our doors are guaranteed not to warp, twist or shrink and come with a 10 year warranty. Composite doors also offer the highest level of thermal efficiency and intruder resistance on the market today

STYLE

Our Inox Doors use finely grained 304 grade stainless steel glazing frames which as well as adding a distinctive European flair are guaranteed to keep their high shine and stunning looks for years to come. These Inox frames can be combined with a selection of beautiful, modern decorative glass options which complement the door style. All our glass options are encapsulated in a triple glazed unit which as well as giving industry leading thermal efficiency are also easy to clean.

We offer a range of different glazing styles with our Inox Glazing system, from the simplicity of the Bern, to the sweeping style of the Barcelona, with many in between.

All our doors are available in a range of 5 standard colours and a premium range of 13 further options where we can also supply matching coloured frames if needed (see page 20-21 for colour choices).
